Bienvenue to the Mme et M.

‘A lifestyle that brings you closer to heaven’

Mme et M. has cultivated its own design world in the pool gardens and house terraces. Therefrom solutions have sprouted and found ideal locations in the reality of trendy boutique hotels and exotic beaches.

You could regard the products under the Mme et M. range, as our main collection. When developing this range the focus was on a minimalistic use of materials without compromising the overall quality and refinement of the design. A feature that has given the Mme et M. brand its worldwide appreciation.

Each product in the catalogue of Mme et M. can be customized for every project regardless of proportions, personalization and colour.

Besides standard pieces from our catalogue, any bespoke shapes, whether it is contemporary or timeless, can be made in our ateliers to satisfy the requirements and needs of both private clients and interior architects.

With pursuing a vision to give an exceptional added value to day beds, we find our roots in taking an authentic approach that is strongly tied to handmade tradition.

les emotions

‘Because the smallest joys generate the biggest smiles’

In the following pages you will find a collection of our existing and new designs. Each piece was handmade with pure beauty, function and your comfort in mind. We hope you enjoy using our products as much as we took pleasure in creating them.

The Mme et M. team and ateliers are based in Belgium where we are blessed with several seasons.

It is a beautiful place to come home after traveling through the cosmopolitan centres of the world. It is a place where traditions persist and where people convey a special warmth and friendliness. For this range we collaborate with skilled craftsmen who take pride in their work. Many of the materials we use are sustainable and we strive to innovate the usage and extend the longevity of every design. The specialized handwork that goes into each piece allows us to keep our energy consumption to a minimal.

At Mme et M., we believe in the necessity of interacting with several weather conditions. We take our experience and connection with mother nature in all shapes very seriously. It is this feeling, of being part of the world, that we realize in our brand.

Great expanse, openness, lightness, familiarity with the elements and seasons, reminiscences, memories of people and places, comfort, awe and wonder...

These are all emotions that are evoked where we live. And it is these same emotions that we want to share through our designs.

Cadres & Frames

Padouk is an African species of tropical hardwood. The high quality allows us to make wide frame segments out of one piece of wood. The colour and characteristics of the wood are similar to teak. Our suppliers have their own concession and guarantee to deliver only the best quality of Padouk hardwood, with a clear paper trail to guarantee sustainable entrepreneurship.

UV rays, rain and acid rain, fluctuating humidity levels, frost, extreme heat and so on... Just like other types of wood, Padouk will gradually become rougher and start to turn grey as a consequence of exposure to the sun and rain.
